Intelligent Solutions Group International

Motor Control Centers

Draw-out intelligent motor control centers with configurable drive integration and motor protection.

Representative configuration

KEY FEATURES

- Modular configurations for motor control
- Draw-out construction for equipment access
- VFD and motor protection integration
- Control and monitoring options by application

TECHNICAL SPECIFICATIONS

Electrical Ratings	
Voltage	480V / 600V
Current	Up to 3000A
Frequency	50Hz/60Hz
Construction	
Type	Draw-out Intelligent MCC
Enclosure	NEMA 1 and NEMA 12
Protection	
Features	VFD Integration, Motor Protection
Standards Compliance	
Standards	UL 845, CSA
Certifications	UL Listed
Applications	
Usage	Industrial Motor Control

Confirm final ratings, applicable certification scope, production availability and delivery terms in the manufacturer's quotation and approved project submittal.
