Intelligent Solutions Group International

Panelboards

Low-voltage panelboards with configurable bus, mounting, metering, and enclosure options.

Representative configuration

KEY FEATURES

- Indoor and outdoor enclosure configurations
- Wall-mounted or floor-mounted arrangements
- Copper or aluminum bus options
- Optional metering and project-specific layouts

TECHNICAL SPECIFICATIONS

Electrical Ratings	
Voltage	480V / 600V
Current Rating	Up to 1200A
Short Circuit	65kA / 100kA
Frequency	50Hz / 60Hz
Construction	
Enclosure	NEMA 1 / NEMA 12 / NEMA 3R / NEMA 4X
Busbar	Copper / Aluminium
Mounting	Wall / Floor Mounted
Protection	
Breaker Types	MCB / MCCB
Metering	Optional
Standards Compliance	
Standards	UL 67, CSA, ANSI, NEMA
Certifications	UL Listed
Applications	
Usage	Commercial Buildings, Industrial Facilities

Confirm final ratings, applicable certification scope, production availability and delivery terms in the manufacturer's quotation and approved project submittal.
